

Migration Data and Global Trends

NAME

DATE

LEARNING OUTCOMES — CHECK EACH ONE OFF AS YOU MASTER IT

Identify major migration trends and corridors

Interpret migration statistics and datasets

Describe key migration datasets and recognize missing populations

Recognize common misconceptions about migration numbers

KEY TERMS — DEFINE EACH IN YOUR OWN WORDS

IOM

UN DESA

Net migration

Migration flow

GUIDED NOTES — FILL IN THE MISSING FIGURES AS YOU FOLLOW THE LECTURE

1. Scale: _____ international migrants globally in 2024 — nearly doubled from 154 million in 1990 in absolute numbers, but only from 2.9 to 3.7 percent of world population (UN DESA, 2025).

2. Forced displacement: _____ forcibly displaced at end-2024, including 42.7 million refugees, 73.5 million IDPs, and 8.4 million asylum seekers — one in every 67 people on earth (UNHCR Global Trends ...)

3. Hosting countries: contrary to political discourse in wealthy countries, _____ of the world's refugees are hosted in low- and middle-income countries

REFLECTION — ANSWER IN FULL SENTENCES

The signature experience for this module asks students to produce a 'data brief': a structured analytical summary of one migration trend using at least two data sources, with explicit identification of at least one methodological limitation or population gap.

Undergraduate brief components: (1) identify and describe a migration trend using official data
