- Identify support systems and integration services
- Describe the role of communities and community-led solutions
- Analyze community responses to migration

KEY TERMS — DEFINE EACH IN YOUR OWN WORDS

Integration

Assimilation

Sanctuary city

Social cohesion

GUIDED NOTES — FILL IN THE MISSING FIGURES AS YOU FOLLOW THE LECTURE

1. Over _____ of the world's population now lives in cities, and urbanization continues to grow — by 2050, an estimated 68 percent of humanity will be urban (UN DESA). Migrants disproportionately concentrate ...

2. The majority of the world's refugees and asylum seekers no longer live in camps — approximately _____ live in urban settings or rural areas outside of camps (UNHCR, 2023), primarily in cities of the ...

3. Cities are the primary sites of migration and integration: _____ of refugees live outside camps, most in urban settings

REFLECTION — ANSWER IN FULL SENTENCES

Humphris finds that Sheffield's 'City of Sanctuary' designation produced symbolic inclusion without structural transformation. Is symbolic inclusion worthless — or does it create conditions for structural change over time? What evidence would help distinguish ...

Should universities and colleges have an active role in receiving refugees and asylum seekers — through initiatives like Every Campus a Refuge? What are the ethical and practical opportunities and risks?

MY QUESTIONS FOR CLASS
