Explain how economic, political, and environmental conditions influence migration

Describe how drivers interact and recognize multi-causality

Apply drivers to real migration examples

KEY TERMS — DEFINE EACH IN YOUR OWN WORDS

Multi-causality

Structural driver

Precipitating event

Drivers of migration

GUIDED NOTES — FILL IN THE MISSING FIGURES AS YOU FOLLOW THE LECTURE

1. Conflict displacement: according to UNHCR's 2024 Global Trends Report, at the end of 2025 approximately _____ people were forcibly displaced worldwide — the highest recorded figure

2. Environmental migration projections: the World Bank's Groundswell report (2021) projected that, without climate action, up to _____ people could be displaced within their own countries by 2050 due to ...

REFLECTION — ANSWER IN FULL SENTENCES

Case prompt: A young woman in rural Guatemala leaves for the United States in 2023. Her village has experienced: two consecutive failed harvests (drought), MS-13 extortion of her family's small business, a sister already working in Los Angeles, and no legal ...

Individual-level explanation: she was seeking better wages and family reunification — a rational economic decision
