

Climate Change and Migration

NAME

DATE

LEARNING OUTCOMES — CHECK EACH ONE OFF AS YOU MASTER IT

- ☐ Explain environmental drivers of migration
- ☐ Identify regions vulnerable to climate displacement
- ☐ Describe climate migration concepts and legal gaps
- ☐ Recognize the global impact and policy challenges

KEY TERMS — DEFINE EACH IN YOUR OWN WORDS

Climate refugee

Loss and Damage

Climate migration

Scenario planning

GUIDED NOTES — FILL IN THE MISSING FIGURES AS YOU FOLLOW THE LECTURE

1. World Bank Groundswell report (2021): projects up to _____ internal climate migrants across six world regions by 2050, under a pessimistic scenario without concerted climate or development action.

2. Regional breakdown: Sub-Saharan Africa, _____

3. Optimistic scenario: rapid and concerted climate action and green development could reduce internal climate migration to _____ by 2050 — an 80 percent reduction — showing that policy choices now shape ...

REFLECTION — ANSWER IN FULL SENTENCES

The 1951 Refugee Convention does not protect climate-displaced people. Should the international community develop a new legal instrument specifically for climate displacement, or extend existing frameworks? What are the arguments for each approach?

Arce et al. show that consumption in wealthy countries contributes causally to climate displacement in the Global South. Do wealthy country consumers and governments have specific moral obligations to climate-displaced people — beyond general obligations to ...
